

Large Animal Technical Rescue Course

Safety and Success through Prevention, Preparedness and Partnerships.

Any of the surrounding images could happen in your area...
Are you prepared? Would you know what to do?

How can emergency responders, veterinary professionals, and other local resources work together during the rescue operation? What is the safest, quickest, easiest way to perform the rescue operation? What are some safety concerns for the risk assessment? How should the rescue operation proceed? What equipment will be needed? How will the animal be handled once rescued? Will the animal need medical attention?

Date: *Saturday/Sunday April 7th and 8th 2018*

Time: *8a to 6p*

Where: *Halifax County Fairgrounds
South Boston, VA*

Cost: *Free to Halifax County, Va Fire/Rescue/LEO
