

Fire Safety Bingo

Grade Level

K,1,2

Objectives:

- The students will be able to recall fire safety rules.
- The students will participate in a game of “Fire Safety Bingo” involving fire safety rules which they have previously learned.
- Students will have to identify several fire safety rules.

Description: This lesson will allow them to review basic fire safety lessons they have learned by participating in a game of “Fire Safety Bingo”.

Materials: Sheet with questions and answers dealing with fire safety, bingo cards with nine blank squares, M&M’s (these will be used for bingo chips)

Procedure:

- Review fire safety rules.
- Pass out bingo cards and M&M’s.

Explain the rules of the game:

- Questions will be read aloud to students.
- Students must raise their hand in order to answer a question.
- If a student answers a question correctly they will place one of their M&M’s on one of the squares on their bingo card.
- The game ends when a student has completely filled their card and yelled “fire safety”.
- The game can be repeated as many times as time permits.
- Students may eat their M&M’s when the game has ended.
- Added incentive could be additional computer time for the winners.

Assessment: Students can be assessed by their ability to answer the safety questions correctly.
