Burn Building Grant Program Updates

The Burn Building Grant Program is a Capital Construction Project to include new construction, renovations, or repairs. The purpose of the Burn Building is to provide live fire training to fire service personnel in support of Fire Fighter I and Fire Fighter II Training throughout the Commonwealth of Virginia. The Burn Building Grant Program is a matching/cost sharing program based on the size of the project the locality intends to build. **The following updates are effective as of July 1, 2008:**

❖ **Four New Construction Prototypes**

- The new construction prototypes supersede the existing prototype
- Prototype I (Concrete Building) for Class A fuel
- Prototype II (Metal Building) for Class A fuel
- Prototype I (Concrete Building) for Class B fuel
- Prototype II (Metal Building) for Class B fuel

❖ **Project Manual for Burn Building Props – NEW!**

- The new Project Manual supersedes Exhibit A and Attachment B
- Includes design criteria, policies, agency practices, locality/municipality information including bid and contract information.

❖ **Renovation/Repair awards**

- Award amount will be based on square footage of Building to Base Model
- Building Plans must identify rooms being used as burn cells

Additional program forms and information are available on our website at www.vafire.com.

If you have questions about the Burn Building Grant Program or need additional assistance, don't hesitate to contact me at 804/249-4178 or via email at Amanda.Wood@vdfp.virginia.gov.

Respectfully,
