

## FIRESAFE CIGARETTE CERTIFICATION

Effective January 1, 2010, cigarette manufactures must submit to the Commissioner of the Virginia Department of Agriculture and Consumer Services (VDACS) certification that their cigarettes, when applicable, meet the certification requirements of §59.1-293.1 et seq., [Code of Virginia](#), regarding reduced ignition propensity.

VDACS is the lead agency in Virginia in this requirement. The Web site below directs you to their web site that contains additional information regarding registration. VDACS is developing an online registration that we feel will facilitate the process. For additional information please visit the website.
