**All information must be printed in ink or typewritten.**

**Submit only one (1) copy of this application and all its attachments to the SFMO. The SFMO must be in receipt of a complete application not less than 15 days prior to the event to avoid an increase in the required fee. A post mark or its equivalent is not the determining factor for having submitted an application in a timely manner. See the fee increase schedule in Statewide Fire Prevention Code Section 107.11 for information on applications received less than 15 days prior to the planned event.**

**Line 1.** Provide name of person or company applying for a permit.

**Line 2.** List telephone number where applicant may be reached.

**Line 3 & 3b.** Use mailing address the applicant can expect the quickest service. If available, provide email address and/or fax number.

**Line 4.** What is the physical address (location) of the permit applicant if it's different from the mailing address given?

**Line 5.** List city, state and zip code for the complete mailing address.

**Line 6.** Provide the firework vendor's Federal Identification Number as provided by the IRS.

**Line 7.** A "designated individual" is defined as "a person in possession of a *Background Clearance Card* (BCC) issued by the SFMO, or is certified by the SFMO as a *Pyrotechnician*, ... (either of) whom are responsible for (i) ensuring compliance with state law and regulations relating to blasting agents and explosives, (ii) applying for explosives or firework permits, (iii) is at least 21 years of age, and (iv) shall demonstrate the capability to effectively communicate safety messages verbally and in writing in the English language."

The "Designated individual" is to print their name and card number in the spaces provided. In accordance with SFPC Section 5601.2.3.1, the SFMO shall deny the application for permit if the application does not contain a designated individual's name and signature as representing the applicant. Space is provided on Line 14 for the designated individual's signature. Attach a photo-copy of the designated individual's card to the application. (The Pyrotechnician named on Line 12.1 may also be the designated individual and/or applicant which results in repeated listings.)

**Line 8.** The use of pyrotechnics before a "proximate audience" is governed by provisions contained in the Virginia Statewide Fire Prevention Code (SFPC) and its incorporated NFPA 1126-11 standard. **This application is for a permit to use NFPA 1126 – type devices**, sometimes referred to as "**close proximity fireworks**", in circumstances listed on lines 8.1 through 8.5.

(If the applicant desires to use pyrotechnics or materials in circumstances not listed, the applicant should immediately consult with the State Fire Marshal's Office for further guidance, direction or information.)

**Line 9.** The SFPC requires a "*plan for the use of pyrotechnics*". The specifics of the plan are paraphrased and spread throughout the application.

Line 9.1. The plan is to include the name of the sponsoring group, person or organization.

Line 9.2. The exact location of the production or firing is to be listed. Include as much information as may be available such as street address, City, County or Town, facility name, building name or number if assigned one, etc.

Line 9.2.1. Provide the name of the venue manager who has overall responsibility for the operation and management of the facility or site where the pyrotechnics are to be used.

Line 9.3. Indicate whether the use of pyrotechnics will occur inside of a state-owned building, or outside on state-owned property to determine the appropriate permit fee. If Line 10.1 also is checked, the permit fee will increase \$150.00 per day for each succeeding and sequential day that pyrotechnics will be used. An example of the required permit fee for an identical indoor display occurring over the course of 3 sequential dates (i.e.: August 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup>), the initial permit fee is \$350.00 plus \$150.00 each succeeding day for a total permit fee of \$650.00.

(A separate application is required for 1123 fireworks. A permit fee reduction is not available for 1123 pyrotechnics used in concert with 1126 pyrotechnics.)

Extract from '12 SFPC Section 107.11

5. \$350 the first day of fireworks, pyrotechnics or proximate audience displays conducted out-of-doors on any state-owned property and \$150 per day for each consecutive day for identical multi-day events. If an application is received by the SFMO less than 15 days prior to the planned event, the permit fee shall be \$550 the first day and \$150 per day for each consecutive day for identical multi-day events. If an application is received by the SFMO less than 7 days prior to the planned event, the permit fee shall be \$650 the first day and \$150 per day for each consecutive day for identical multi-day events.

**Line 10.** Provide the date and time-frames the use of pyrotechnics will occur.

**Line 10.1.** The box is to be checked if the use of pyrotechnic devices will occur on multiple, consecutive dates. If multiple dates are planned for identical setups, list the additional dates and times on a separate sheet. Label or indicate at the top of the sheet that it's an attachment for line #10.1.

Checking the box for Line 10.1 is intended to apply **only** to those multi-day displays that are identical in location, types and numbers of devices. If the firing dates are not consecutive, if the number and/or types of devices are not identical to the day before, or if identical device setups will occur at different locations or dates, new and separate permits are required.

**Line 11** The SFPC provides an opportunity for the operator to prove to the fire official, sponsor and venue manager that the pyrotechnic devices will operate as planned and within the safety parameters required by the SFPC. Designate a date and time at which a walk-through can begin and a representative demonstration will be available.

**Line 12.** The "plan" as mentioned on line 9 also requires specific informational items.

Line 12.1. Provide the name and number of the Virginia Certified Pyrotechnic operator who will be in responsible charge of the setting up and firing of the pyrotechnic devices.

Lines 12.2. List the names and ages of all assistants that will be present. All assistants must be at least 18 years of age. If additional space is needed for line 12.4, attach an additional sheet (not to exceed the standard 8½ by 11 inch dimension) to the application and label or indicate at the top of the attached sheet that it's an additional sheet for line # 12.2.

Line 12.3. The plan requires a listing of *"the number and types of pyrotechnic devices and materials to be used."* If additional space is needed for line 12.5, attach an additional sheet (not to exceed the standard 8½ by 11 inch dimension) to the application and label or indicate at the top of the attached sheet that it's an additional sheet for line # 12.5.

**Line 13.** The "plan" mentioned on line 9 requires specific documents be provided. Placing a check in the boxes provided is a means for the applicant to determine or track for themselves they have obtained or possess the required information, and have attached it to the application.

Line 13.1. A site plan is to be provided of the premises upon which the pyrotechnics will be fired. If the firing will be inside a building, a floor plan or diagram of the space is to be provided. In either case, the position at which the devices will be positioned for firing is to be noted, the fallout radius is to be indicated, and the lines behind which an audience will be restrained.

Line 13.2. A material safety data sheet (MSDS) is to be provided for each type of device used including the name and address of the manufacturer of the devices and any cautionary statements.

Line 13.3. A statement or certification is to be provided stating that sets, scenery, and rigging materials are inherently flame-retardant or have been treated to achieve a similar flame resistance. If such items will not be exposed or involved, check the box provided.

Line 13.4. Proof of insurance or surety bond is required in an amount that is agreeable to the sponsor (Line 9.1), the venue manager (Line 9.2.1) and permit applicant but shall not be less than \$1,000,000.00. The proof of insurance or bond is to be submitted as an attachment to the application.

**Line 14.** Attestation that is largely self-explanatory.

**Lines 15.** Signature line.

**IMPORTANT page 4 information:** After application review and acceptance, only the 4<sup>th</sup> page of the application will be returned to the applicant as a provisional and/or finalized permit.

The applicant is to complete the upper portion of the page listing the applicant's name, phone number, email address (if available), FAX number, the "Designated individual" and card number. The display location, including the city, county or town, and the display date is also to be provided, all of which are repeated from earlier pages in the application.

Upon SFMO review and acceptance, this one page of the application will be used as a provisional permit and will be returned to the applicant.

At the time, date and location of the display, and upon final SFMO inspection, acceptance and signature, the permit will be finalized with a copy returned to the applicant.

**The lack of the correct permit fee or an incomplete application is cause for the application to be returned to the applicant without further processing with any subsequent re-submission subject to increased fees in accordance with SFPC Section 107.11.**
