

ENCLOSURE 1A

Currently on site we have the following:

- An intermodal box that contains a maze for training firefighters to search and rescue would be victims as well as simulate confined space rescue.
 - A existing structure on the property has been modified and will be used for classroom instruction once electrical, water, and sewer are completed.
- * A ladder training tower has been installed.
- The parking area has and will be used for vehicle extrication training for rescue squads.
 - Department of Forestry installed a dry hydrant in September for fire department members to be trained on proper usage.

Any determination of topography or contour, or any depiction of physical improvements, is for informational purposes only and shall not be used for the design, modification, or construction of improvements real property or food plus determination. C of 154-1-102
